The testimony of ow best citizens, of all classes, establishes the fact, that Cheerry Pectoral will and does relieve and cure the afflicting disorders of the Thron and Lungs beyond any other medicine. The nest dangerous affections of the Pulmonary Organ, yield to its power; and cases of Consumption, cured by this preparation, are publicly known, so remarkable as hardly to be believed, were they not proven beyond dispute. As a remedy, it is adequate, on which the public may rely for full protection. By curing Coughs, the forerunners of more serious disease, it saves unnumbered lives, and an amount of suffering not to be computed. It challenges trial, and convinces the most sceptical. Every family should keen it on hand as a protection against the early and unperceived attack of Pulmonary Affections, which are easily met at first, but which become incurable, and too often fatel, if neglected. Tender lungs need this defence; and it is unwise to be without it.
